

REMARKS

Claims 1, 7, 11, 18, and 24 have been amended. Claims 41-46 are newly added. Support for newly-added Claims 41-46 can be found at least in Applicant's Specification, paragraphs [0044] and [0045], as well as FIGS. 1 and 3. Therefore, no new matter has been added. Claim 32 has been cancelled. Thus, Claims 1, 5-8, 10-11, 13, 15-19, 21-31, and 33-46 are currently pending in the application.

The Advisory Action mailed December 7, 2007 was unclear on the status of the Claims. Applicant notes that Box 3, which is sometimes used to indicate that various claim amendments will not be entered, was not checked. However, Box 7 was checked, but the words regarding whether the amendments were entered or not entered were crossed out, so that Applicant can not discern whether the Amendments were entered. Accordingly, Applicant will go forward on the assumption that the Examiner entered all amendments to the claims that were contained within Applicant's Response filed November 13, 2007.

Claims 1, 5-8, 10-11, 13, 15-19, 21-31, and 33-40 stand rejected under 35 U.S.C. § 103 as allegedly unpatentable over U.S. Publication Number 2002/0019864 A1 to Mayer, in view of U.S. Application Number 2003/0177223 to Erickson.

The claims as amended recite subject matter not disclosed or suggested in these or any other references, including but not limited to a version manager.

For at least the above reasons, the rejections of Claims 1, 5-8, 10-11, 13, 15-19, 21-30, and 32, as well as all claims dependent therefrom, can now be withdrawn.

Accompanying this document is an Applicant Initiated Interview Request Form. Acknowledgement of this Request is respectfully requested. Additionally, the Examiner is respectfully requested to contact the undersigned by telephone if it is believed that such contact would further the examination of the present application.
